Bingham Canyon, Utah 84006-042

Dear Mr. Spencer:

Re: Reclamation, Barney's Canyon Gold Project, M/035/009, Salt Lake County, Utah

I have enclosed a copy of the June 10, 1988 letter received from BP Minerals. The letter was written based on a meeting between the Division, BP Minerals, and JBR Consultants on June 9, 1988. The letter discusses reclamation of the Mel-Co 7100 and 7200 dumps (page 4, highlighted). This information should have been incorporated onto page 115 of the plan.

We discussed your question on the dump slope height, in regard to Air Quality Control requirements, and the possibility of extra disturbance to the surrounding terrain. We will need something more specific from you outlining the alternatives and the surface area to be disturbed. After review, it may be possible to schedule a meeting with BP Minerals, Air Quality, and the Division.

Thanks again for the tour and your very helpful discussion regarding construction and future reclamation.

Sincerely,

Holland Shepherd  
Reclamation Soils Specialist
